

icebox

the ultimate in kitchen entertainment

Touch Screen Monitor

No need for a mouse in the kitchen. Accessing information, communication and entertainment has never been easier. Screen easily rotates and pivots to almost any viewing angle.

Television

Watch your favorite show or catch up on the morning news. The flat LCD screen provides exceptional picture quality. It's the best in TV entertainment from the convenience of your kitchen.

FM Radio

Listen to your favorite local FM radio stations and program your favorites.

DVD & CD Player

Watch a movie with your toddler or slice and dice while you listen to your favorite music. Also plays MP3 discs.

Home Video Monitoring

Watch your sleeping infant upstairs, check to see who's at the front door, or keep an eye on the kids in the backyard. The addition of a video camera turns the iCEBOX™ into a monitor for any room in the home.

Internet

Finally, internet access in the kitchen! Send an email while you're waiting for the water to boil or check the local traffic before heading out the door. Broadband ready, it's information and communication at your fingertips.

Washable Keyboard

Go ahead: spill, be messy. This revolutionary keyboard is washable and wireless!

Washable Remote

This remote is designed to withstand the rigors of the kitchen. It's also washable and wireless.

Beyond™ Appliance Connectivity

The iCEBOX™ CounterTop supplies your Beyond™ Appliances with barcode information and the correct atomic time, ensuring they work to their fullest capability.
