Microwave Oven

Finally, an easy way to cook meals perfectly and evenly every time. No more guesswork. Just scan the barcode on your food package—the Beyond Microwave Oven does the rest. Perfect Chicken a la King. Perfect rice. Perfectly delicious. Comes with 4,000 barcode recipes and stores your favorites as you use it. Add the Home Hub and the Beyond Microwave Oven updates its memory automatically from recipes in the Beyond Network database. Never burn popcorn again!

Use of connectivity features require the use of a Home Hub or iCEBOX & SANI Card sold separately
